SAFETY DATA SHEET
PIP Spray

## Section 1. Identification

| GHS product identifier | $:$ PIP Spray |
| :--- | :--- |
| Other means of <br> identification | $:$ Not available. |
| Product code $: 6140100,6140200$ <br> Product type $:$ Liquid. <br> Product use Dental Products : |  |

## Relevant identified uses of the substance or mixture and uses advised against

Not applicable.

| Supplier's details | $:$ Keystone Industries <br> 52 West King Street <br> Myerstown, PA 17067 <br> (856) 663-4700 |
| :--- | :--- |
|  | $:(800) 535-5053$ |
| Emergency telephone <br> number (with hours of <br> operation) |  |

## Section 2. Hazards identification

| OSHA/HCS status | : While this material is not considered hazardous by <br> Standard (29 CFR 1910.1200), this SDS contains <br> safe handling and proper use of the product. This <br> for employees and other users of this product. |
| :--- | :--- |
| Classification of the <br> substance or mixture | $:$Not classified. |
|  | Percentage of the mixture consisting of ingredien |
| GHS label elements | $:$ No signal word. |
| Signal word <br> Hazard statements | $:$ No known significant effects or critical hazards. |
| Precautionary statements |  |
| Prevention <br> Response | $:$ Not applicable. |
| Storage <br> Disposal | $:$ Not applicable. |
| Hazards not otherwise <br> classified | $:$ Not applicable. |

## Section 3. Composition/information on ingredients

| Substance/mixture <br> Other means of <br> identification <br>  <br> CAS number/other identifiers | $:$ Mixture |
| :--- | :--- |
| CAS number : Not apailable. <br> May contain one or more of the following components in quantities considered hazardous:  |  |

## Section 3. Composition/information on ingredients

| Ingredient name | CAS number | EC number | $\%$ |
| :--- | :--- | :--- | :---: |
| Siloxanes and Silicones, di-Me | $63148-62-9$ | - | $<10$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

\(\left.$$
\begin{array}{ll}\text { Eye contact } & \begin{array}{l}: \begin{array}{l}\text { Immediately flush eyes with plenty of water, occasionally lifting the upper and lower } \\
\text { eyelids. Check for and remove any contact lenses. Get medical attention if irritation } \\
\text { occurs. }\end{array} \\
\text { Inhalation }\end{array}
$$ <br>
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get <br>

medical attention if symptoms occur.\end{array}\right\}\)| : Flush contaminated skin with plenty of water. Remove contaminated clothing and |
| :--- |
| shoes. Get medical attention if symptoms occur. |
| Ingestion | | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position |
| :--- |
| comfortable for breathing. If material has been swallowed and the exposed person is |
| conscious, give small quantities of water to drink. Do not induce vomiting unless |
| directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed
Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

## Over-exposure signs/symptoms

| Eye contact | $:$ No specific data. |
| :--- | :--- |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments : No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire. media Unsuitable extinguishing : None known. media

## Section 5. Fire-fighting measures

| Specific hazards arising <br> from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| :--- | :--- |
| Hazardous thermal <br> decomposition products | : Decomposition products may include the following materials: <br> carbon dioxide <br> carbon monoxide |
| Special protective actions <br> for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if <br> there is a fire. No action shall be taken involving any personal risk or without suitable <br> training. |
| Special protective <br> equipment for fire-fighters | Fire-fighters should wear appropriate protective equipment and self-contained breathing <br> apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

## Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up
Small spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill
: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

## Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8).
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits
None.

## Appropriate engineering controls <br> Environmental exposure controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

Eye/face protection

## Skin protection

 Hand protectionBody protection

Other skin protection

Respiratory protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

## Appearance

| Physical state | $:$ Liquid. |
| :--- | :--- |
| Color | $:$ Green. |
| Odor | $:$ Minty. |
| pH | $:$ Not available. |
| Melting point | $:$ Not available. |
| Boiling point | $:>100^{\circ} \mathrm{C}\left(>212^{\circ} \mathrm{F}\right)$ |
| Flash point | $:$ Not available. |
| Evaporation rate | $:>1$ (butyl acetate $=1)$ |
| Lower and upper explosive | $:$ Not available. |
| (flammable) limits | $:<2.7 \mathrm{kPa}(<20 \mathrm{~mm} \mathrm{Hg})$ [room temperature] |
| Vapor pressure | $:>1[$ Air $=1]$ |
| Vapor density |  |

## Section 9. Physical and chemical properties

| Relative density | : Not available. |
| :--- | :--- |
| Solubility | : Not available. |
| Solubility in water | : Not available. |
| Partition coefficient: n - : Not available. <br> octanol/water  <br> Auto-ignition temperature : Not available. <br> Viscosity : Not available. l |  |

## Section 10. Stability and reactivity

## Reactivity

Chemical stability : The product is stable.

Possibility of hazardous reactions

Conditions to avoid : No specific data.
Incompatible materials : No specific data.

Hazardous decomposition products
: No specific test data related to reactivity available for this product or its ingredients.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

## Information on toxicological effects

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Siloxanes and Silicones, di- <br> Me | Eyes - Mild irritant | Rabbit | - | 1 hours 100 <br> milligrams <br> 24 hours 100 | - |
|  | Eyes - Mild irritant | Rabbit | - | microliters <br> 24 hours 100 <br> microliters <br> 24 hours 500 <br> microliters | - |
|  | Eyes - Moderate irritant | Rabbit | - | - |  |
|  | Skin - Mild irritant | Rabbit | - |  |  |

Information on the likely : Not available.
routes of exposure
Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact | : No specific data. |
| :--- | :--- |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |

## Section 11. Toxicological information

| Delayed and immediate effects and also chronic effects from short and long term exposure |
| :--- |
| Short term exposure <br> Potential immediate <br> effects |
| Potential delayed effects $:$ Not available. <br> Long term exposure  |
| Potential immediate <br> effects |
| Potential delayed effects $:$ Not available. <br> Potential chronic health effects  |
| Not available. |
| General |
| Carcinogenicity |
| Mutagenicity |
| Teratogenicity |
| Developmental effects |
| Fertility effects |

## Numerical measures of toxicity

## Acute toxicity estimates

Not available.

## Section 12. Ecological information

## Toxicity

| Product/ingredient name | Result | Species | Exposure |
| :--- | :--- | :--- | :--- |
| Siloxanes and Silicones, di- <br> Me | Acute LC50 44.5 ppm Fresh water | Daphnia - Daphnia magna - Instar | 48 hours |
|  | Acute LC50 $3160 \mu \mathrm{~g} / \mathrm{I}$ Fresh water | Fish - Ictalurus punctatus | 96 hours |

## Bioaccumulative potential

Not available.

## Mobility in soil

Soil/water partition
: Not available.
coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered

## Section 13. Disposal considerations

when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|  | DOT <br> Classification | TDG <br> Classification | Mexico <br> Classification | ADR/RID | IMDG | IATA |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| UN number | Not regulated. | Not regulated. | Not regulated. | Not regulated. | Not regulated. | Not regulated. |
| UN proper <br> shipping name | - | - | - | - | - | - |
| Transport <br> hazard class(es) | - | - | - | - | - |  |

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

Personal protection

## PIP Spray

## Section 16. Other information

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.
